

SanVitis Trebiano 2016

ORANGE WINE

Organic Farming and Natural Wine
San Vitis is an estate outside of Rome making traditional wines with grapes that date back to the Etruscans. To achieve the purest reflection of their terroir, San Vitis farms organically without chemical herbicides or pesticides and makes their wines without chemical manipulation. This orange wine employs red winemaking techniques (skin contact maceration) to the white grape Trebbiano to produce a medium bodied, amber hued, generously aromatic wine to enjoy as an aperitif or with your favorite cheese plate.
